

RESTRAINED NATIONAL & INTERNATIONAL CALL TO TENDER**N°056/26/DTH**

COSIDER Canalisations issues a restrained national & international call to tender to acquire supply for:
Design, Supply, Installation, Testing, and Commissioning of a treated water demineralization plant under an EPC contract with a capacity of 10,000 m³/day – Tindouf Province

This call for tenders is open to companies specialising in the design and construction of demineralisation and/or reverse osmosis desalination plants. The tenderer must provide evidence of having completed at least one plant with a capacity of $\geq 5,000$ m³/day and an average annual turnover (over the five best years of the last ten) of $\geq 500,000,000$ DA or the equivalent in foreign currency. In the case of a consortium, the members must be jointly and severally liable, and the lead partner must meet the aforementioned technical and financial requirements.

Each bidder must provide a bid bond in an amount equal to or greater than one percent (1%) of the total amount of its financial bid, including all taxes.

The interested companies by this opinion can withdraw tender document conditions at the address given below, against giving a copy of the Register of Trade and a payment of the sum of **Ten Thousand Dinars (10.000, 00 DZD)** "valid method of payment for international applicants", to the following bank (BEA) accounts:

COSIDER Canalisations**Direction des approvisionnements et de la sous-traitance****Route de la Base Aérienne, Chéraga – Alger**

- **Compte n°00200004040046013979 (Agence 004 Chéraga)**
- **Compte n°00200100100220016409 (Agence 004 Zéralda)**

Documents required in the specifications, must be submitted in double envelopes closed, anonymous and bearing a wet stamp.

The first envelope will contain the technical offer and will be marked "technical offer".

The second envelope will contain the financial offer and will be marked "financial offer".

The two envelopes will be arranged in a third envelope (external) obligatorily anonymous that will carry the following indications:
